SECTION 1: GETTING STARTED

1.1 About WorkOps

WorkOps is a comprehensive, web-based company management system designed to streamline and automate daily organizational operations. It provides a centralized platform for managing employees, departments, tasks, attendance, leaves, and performance reviews. The system replaces manual processes with automated workflows, role-based access control, and real-time dashboards for better decision-making.

Three Role-Based Panels:

Panel	Users	Primary Functions
Admin Panel	System Administrator	Full control: employees, departments, settings
Manager Panel	Department/Team Manager	Team tasks, leave approvals, reports
Employee Panel	Regular staff	Tasks, attendance, leave requests, profile

1.2 System Requirements

Hardware Requirements:

Component	Minimum	Recommended
Processor	Intel Core i3	Intel Core i5+
RAM	4 GB	8 GB+
Storage	500 MB free	1 GB free
Display	1366x768	1920x1080

Software Requirements:

- Operating System: Windows 10/11, Windows Server 2016+, macOS (latest)
- Web Browser: Google Chrome (latest 2 versions), Mozilla Firefox (latest 2), Microsoft Edge (latest 2)
- Internet Connection: Required for web access, 1 Mbps minimum

Network Requirements:

- Protocol: HTTP/HTTPS
- Port: 80 (HTTP) or 443 (HTTPS)
- Bandwidth: 1 Mbps or higher

1.3 Accessing the System

Step 1: Open your web browser (Chrome, Firefox, or Edge)

Step 2: Enter the WorkOps system URL provided by your administrator

Example: <http://your-server-name/WorkOps>

Step 3: You will see the WorkOps login screen with fields for email and password

1.4 Login Process

Step 1: Enter Credentials

Field	Description
Email Address	Your registered work email address
Password	Your secure password

Step 2: Click the blue Login button to access the system

Step 3: Automatic redirection based on your role:

- Admin → Admin Panel

- Employee → Employee Panel

1.5 Default Login Credentials (First Time Only)

Role	Email Address	Password
Administrator	admin@workops.com	Admin@123

Role	Email Address	Password
Manager	manager@workops.com	Manager@123
Employee	employee1@workops.com	Employee@123

IMPORTANT: Change your password after first login for security. Default passwords are publicly known and should never be kept long-term.

1.6 Forgotten Password & Account Lockout

Forgotten Password:

1. Contact administrator (only they can reset passwords)
2. Administrator provides a temporary password
3. Login and change password immediately from your profile settings

Account Lockout:

- Your account locks after 5 consecutive failed login attempts
- Wait 30 minutes for automatic unlock (if configured by administrator)
- Or contact your administrator to unlock your account manually

1.7 Logout Process

Step 1: Click your profile icon in the top-right corner of any page

Step 2: Select Logout from the dropdown menu

Step 3: You will be redirected to the login page

Note: Session automatically expires after 8 hours of inactivity for security purposes.
